Longman Lindsey

Paul Montgomery, Jr.
Associate Partner

Paul Montgomery is a project manager at Longman Lindsey. He has a decade of educational and professional acoustical engineering expertise involving the architectural characteristics and mechanical attributes of a project and its geographical significance. Paul has served as an acoustic consultant for projects involving Fortune 500 companies, Manhattan's most prestigious residential buildings, and major hospitals throughout the nation.

Paul's specialization is in mitigating noise and vibration from equipment and analyzing structural vibrations due to human, vehicle, and train activity for sensitive laboratory and healthcare equipment. He enjoys high-end residential development projects, as he determined to provide an optimal acoustic environment through thoughtful planning and cooperation with design teams.

Education:

Penn State University
MS Mechanical Engineering
Minor in Acoustics

Rowan University
BS Mechanical Engineering

Affiliations:

Acoustical Society of America

American Society of Mechanical Engineers
