

Michael Sands

Senior Associate

Michael is a project engineer at Longman Lindsey with nearly a decade of experience in the field of acoustics. He has worked on a wide range of project types including libraries, residential towers, commercial offices and mixed use facilities. He also has extensive experience in medical and research facilities, including design of spaces suited to sensitive equipment associated with such facilities. Michael excels at communicating with and understanding a clients' needs, applying practical solutions to satisfy all facets of design as they apply to both engineering and architecture .

Michael earned his bachelor's degree in mechanical engineering with a concentration in Acoustics from the University of Hartford, graduating with honors. He has previous experience in applying acoustics to the design of nuclear submarines at General Dynamics Electric Boat, where he designed critical operating systems to conform to strict acoustic requirements set forth by the United States Navy.

Education:

University of Hartford,  
Mechanical Engineering  
Concentration in Acoustics

Affiliations:

Acoustical Society of  
America
