

## Peter Zarzecki

### Associate

Peter Zarzecki is a project engineer at Longman Lindsey. Peter's background in mechanical engineering allows him to work successfully and be flexible on any project that comes his way. From his time in acoustics, Peter has taken an interest in projects ranging from façade analysis to interior fit-outs.

Peter earned a Bachelor of Science degree in Mechanical Engineering, with minor in Mathematics, from Manhattan College. The unique and evolving challenge of finding solutions suited to various client needs is what excites Peter to continue to learn and broaden his professional skill set.

Peter is also a baritone saxophone player who was president of the Manhattan College Pep Band. As a young musician, Peter took an interest in how the acoustics of different concert venues, such as the Nassau Coliseum, MVP Arena, and EPCOT, played a role in how the band sounded. His curiosity with interior acoustics helped launch his acoustical consulting career.

#### Education:

Manhattan College  
BS Mechanical Engineering

#### Affiliations:

American Society of Heating,  
Refrigeration, and Air  
Conditioning Engineers

Society of ???

#### Project Experience:
